Gentlemen:

Our information indicates that you use both groundwater and Rocky Ford Irrigation Company water to irrigate your land. The aerial photo taken during 1996 shows that you are irrigating more land than is allowed by your groundwater right. We assume that this additional land is irrigated with water from shares in the Rocky Ford company.

According to the procedures described in the accompanying letter, you are required to install a meter on your pump which has been numbered as well #94 by the commissioner. If your pump is powered solely by electricity, you may elect to install an hour meter and have your water measured by pitot tube.

Either an hour meter or a water meter must be installed before the start of irrigation this year (1997). Failure to comply will result in an order to cease the use of water. After the order has been issued, water users found in violation of the 1962 Adjudication order will be subject to contempt proceedings in District Court.

If you have any questions, please contact me at (801) 538-7380.

Sincerely,

Lee H. Sim, P.E.
Assistant State Engineer
for Adjudication and Distribution

cc: Kerry Carpenter, Regional Engineer
Lavar Davis, Commissioner
Keith James, Committee Chairman
